

Women and Minorities... Open Your Business in a York City Neighborhood!

Learn about the CA/SCORE Urban Entrepreneur Initiative (UEI)

SCORE // | Susquehanna

Crispus Attucks (CA), provider of comprehensive education, human and economic development services, and Susquehanna SCORE, the region's on-going free new business start-up education and mentoring service, have been funded by the York County Community Foundation to work with York City women and minorities to create neighborhood-based businesses.

CA and SCORE have surveyed city residents to learn the business preferences of many York neighborhoods. As a result, you can receive the training needed to start a business preferred in a local neighborhood.

Want to learn more?

Step 1: UEI Training

We will train you to develop a business model canvass during four two-hour sessions on Saturdays in May. **They will be held from 10-Noon at Crispus Attucks, 605 S. Duke Street, York, PA 17401 on May 5, 12, 19 and 26.** We encourage you to bring family, friends, church members, neighbors and others to learn about this new venture. The meeting will spell out the details of the Urban Entrepreneurship Initiative. Learn

which businesses York City residents most want to see in their neighborhoods.

Step 2: Pitch Your UEI Business

At the last class on May 26, you will be invited to make a "neighborhood new-business" presentation. A panel of judges will perform an off-site review of the presentations. They and CA and SCORE will select up to three neighborhood-based businesses for further development. Selected businesses will be notified by June 15, 2018.
